

## DESCRIPTION

The EV2494DN-00A is an evaluation board for the MP2494. The MP2494 is a monolithic step-down switch mode converter. It achieves 2A continuous output current over a wide input supply range with excellent load and line regulation.

Fault condition protection includes cycle-by-cycle current limiting and thermal shutdown.

The MP2494 requires a minimum number of readily available standard external components.

## ELECTRICAL SPECIFICATIONS

Parameter	Symbol	Value	Units
Input Voltage	$V_{IN}$	8 - 55	V
Output Voltage	$V_{OUT}$	5	V
Output Current	$I_{LOAD}$	2	A

## FEATURES

- Programmable up to 2A Output Current
- Output Adjustable from 0.8V to 15V
- 0.25Ω Internal Power MOSFET Switch
- Stable with Low ESR Output Ceramic Capacitors
- 95% Efficiency @ 500mA ( $V_o=5V$ )
- Fixed 100kHz Frequency
- Thermal Shutdown
- Cycle-by-Cycle Over Current Protection
- Good EMI Performance
- Wide 8V to 55V Operating Input Range

## APPLICATIONS

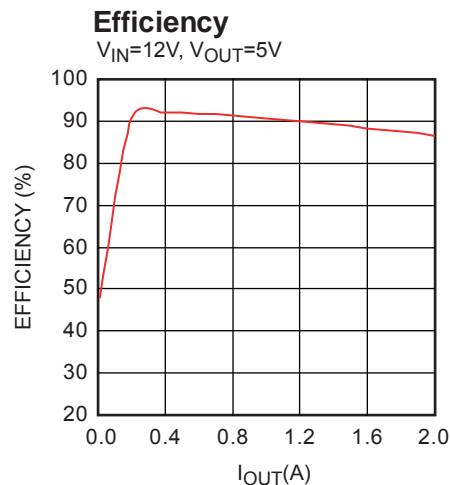

- USB Power Supplies
- Automotive Cigarette Lighter Adapters
- Linear Chargers

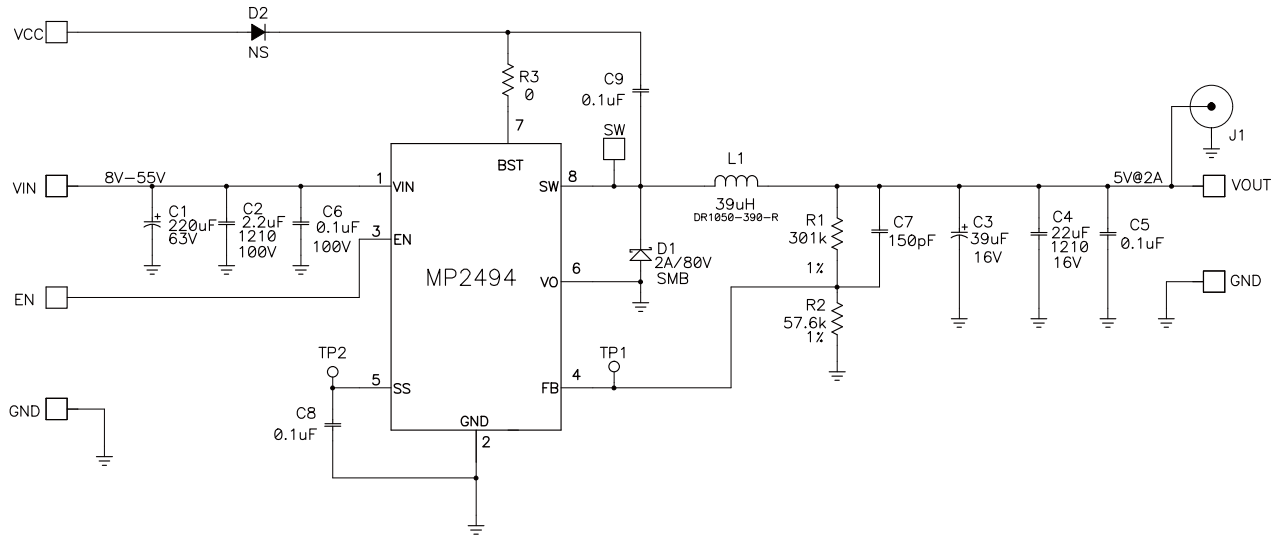

MPS<sup>®</sup> and "The Future of Analog IC Technology" are Registered Trademarks of Monolithic Power Systems, Inc.

## EV2494DN-00A EVALUATION BOARD

TBD

Board Number	MPS IC Number
EV2494DN-00A	MP2494

**EVALUATION BOARD SCHEMATIC**

## QUICK START GUIDE

1. The output voltage of this board is set to 5V. The board layout accommodates most commonly used inductors and output capacitors.
2. Attach the positive and negative ends of the load to the VOUT and GND pins, respectively.
3. Attach the input voltage ( $8V \leq V_{IN} \leq 55V$ ) and input ground to the IN and GND pins, respectively.
4. The MP2494 will startup automatically without applying an external voltage to the EN pin. The output voltage  $V_{OUT}$  can be changed by varying R2. Calculate the new value using the formula:

$$R2=R1 \times V_{FB} / (V_{OUT}-V_{FB})$$

Where  $V_{FB} = 0.8V$  and  $R1 = 300k\Omega$ .

For example, for  $V_{OUT} = 5V$ :

$$R2=R1 \times V_{FB} / (V_{OUT} - V_{FB}) = 300k\Omega \times (0.8/5-0.8)= 57.6k\Omega$$

For the closest standard 1% value.
