

Monolithic Power Systems to Present at Deutsche Bank 2008 Technology Conference in September

SAN JOSE, Calif., Aug 25, 2008 /PRNewswire-FirstCall via COMTEX News Network/ -- Monolithic Power Systems (MPS) (Nasdaq: MPWR), a leading fabless manufacturer of high-performance analog and mixed-signal semiconductors, today announced that company executives will present at the Deutsche Bank 2008 Technology Conference on Wednesday, September 10th, 2008. MPS will present at 9:10am Pacific Time (12:10pm ET).

The conference will be held at the Palace Hotel in San Francisco. MPS executives will discuss the company's continued success in developing and delivering leading-edge analog and mixed-signal semiconductor products.

About Monolithic Power Systems, Inc.

Monolithic Power Systems, Inc. (MPS) develops and markets proprietary, advanced analog and mixed-signal semiconductors. The company combines advanced process technology with its highly experienced analog designers to produce high-performance power management integrated circuits (ICs) for DC to DC converters, LED drivers, Cold Cathode Fluorescent Lamp (CCFL) backlight controllers, Class D audio amplifiers, and Linear ICs. MPS products are used extensively in computing and network communications products, LCD monitors and TVs, and a wide variety of consumer and portable electronics products. MPS partners with world-class manufacturing organizations to deliver top-quality, ultra-compact, high-performance solutions through the most productive, cost-efficient channels. Founded in 1997 and headquartered in San Jose, California, the company has expanded its global presence with sales offices in Taiwan, China, Korea, Japan, and Europe, which operate under MPS International, Ltd.

Monolithic Power Systems, MPS, and the MPS logo are registered trademarks of Monolithic Power Systems, Inc. in the U.S. and trademarked in certain other countries.
